* The Single County may be had. † New Editions now in course of compilation.

THESE useful books have been issued for a great number of years, and contain the fullest particulars of the Counties with which they deal.

A topographical account is given of every city, town, parish, village, or hamlet, with notes as to the buildings of architectural interest, and antiquities; the acreage of every parish is stated, the crops and soil are described, and full information as to Postal matters, Law and Public Offices, churches, chapels, together with particulars respecting conveyance by railway, water, or land, are also given.

The names of the inhabitants are arranged alphabetically under each town or parish, and in addition there are general classifications of the private inhabitants and of traders, thus offering every facility for reference.

NO detailed description of these publications is necessary. Those given above are the most important, but smaller towns will be found under the headings of Country Locals.

The importance of the Town Directories may be gauged by the fact that Gore's Liverpool Directory (the property of Kelly's Directories Limited) dates from 1766, and Slater's Manchester (also published by Kelly's Directories Limited) from 1795.

This Company, established upwards of sixty years, purchases or makes Loans upon
REVERSIONARY INTERESTS, vested or contingent, in WELL-SECURED PROPERTY; also
LIFE INTERESTS in Possession or in Expectation, and
POLICIES OF ASSURANCE upon lives.

LOANS UPON REVERSIONS may be obtained either at an Annual Interest, or in consideration of redeemable deferred charges, payable upon the REVERSIONS falling in.

PRESENT INCOMES are likewise advanced upon the latter principle to persons entitled to Reversionary Interests, who may thus obtain the means of support until their property falls into possession, without being called upon for any payment until that event.

Prospectuses and Forms of Proposal may be obtained from the Secretary, to whom all communications should be addressed.

PURCHASES.—The Society purchases Reversions and Remainders, whether absolute or contingent; Life Interests whether in possession or deferred, and generally all Interests (in approved property) that depend upon the duration of human life.

LOANS.—The Society also grants Loans on the security of such Interests, either on ordinary Mortgage or by way of Reversionary Charge. The latter mode meets the convenience of borrowers who do not wish to make any payment for either principal or interest until their Reversionary Property falls into possession. The amount to which the Society will then be entitled is fixed at the outset, and does not depend on the time elapsing between the grant of the Loan and its repayment. The option of redeeming the Charge during the first three or five years can usually be combined with this form of Loan.

LIFE ANNUITIES are granted by the Society in exchange for Reversions and other Interests, and also in consideration for Reversionary Charges payable when the property falls into possession. In this way a Reversioner can secure a fixed income and avoid the trouble and expense of obtaining successive Loans.

The operations of the Society not only enable future expectations to be turned into present cash on fair terms, but contingent Interests which may never come into possession at all are also made available for immediate uses.

The Board of Directors meet on Wednesdays at Four o'clock, to consider proposals—forms for which and full information can be obtained at the Society's Offices—but immediate consideration will be given to business where dispatch is of importance.

THE SCHOOL is built near the Beacon, on a high piece of ground overlooking some of the grandest scenery in Cornwall. It is well drained, and on the most improved system. The premises were built under plans by an experienced architect in this branch of work. The air is warm, very bracing and healthy, and the soil dry. The buildings include the Head Master's house, having accommodation for fifty boarders, the School, Class-rooms, Library, Chemical Laboratory and Lecture Room, Study, Gymnasium. The Dormitories are well lighted, airy and lofty. One set of dormitories are next to the Head Master's own bedroom, and the others are next the Assistant Masters' bedrooms. The domestic management of the house is controlled by a Lady Matron, acting under the instructions of the Head Master's wife.

The School is within easy reach of two Railway Stations, viz., Bodmin, G.W.R., and Bodmin, L.S.W.R.

The P. and O. boats from India stop at Plymouth, about 30 miles from Bodmin; these boats are met by a Master.

The Railway Companies issue cheap Scholars' Season Tickets.

Little boys from India or the Colonies receive every care and kindness, and can remain during the holidays if required. The bedrooms are close to the Head Master's room. All boys receive home comforts, and everything possible is done to promote their entire happiness, health, comfort and progress. Mrs. RENNIE is exceedingly fond of boys, and is a thoroughly trained Hospital Nurse (Certificate and Medal).

THE WATER used by the School comes from a pure source, and on analysis is declared by Professor Attfield to be "remarkably pure and of excellent quality."

THE SANITATION of the BOARDING HOUSE and the SCHOOL has received the most careful attention; its system is scientific and independent, the working is constantly watched, and periodically inspected by the Medical Officer of Health for the District and the Medical Officer of the School.

THE DISCIPLINE of the School is mild, but FIRM and IMPARTIAL. The method principally adopted is *moral suasion*, especially an appeal to good sense and feeling, and corporal punishment is not resorted to until all other means have been tried.

GENERAL AIMS.

The institutions of the School and its course of instruction are those which obtain generally in Public Schools. The aims kept in view are:—

- i. To develop the character equally with the intelligence.
- ii. To foster a spirit of loyalty and citizenship.
- iii. To enforce a high standard of manners and reasonable self-respect.
- iv. To provide for a wholesome physical development.

SUBJECTS OF INSTRUCTION.

Scripture History, English Grammar, Composition and Literature, Geography and History, Reading, Writing, Book-keeping, Shorthand, Arithmetic, Mensuration, Algebra, Euclid, Latin, French, Greek, German, Science; Drawing—Freehand, Model, Perspective and Geometrical; Drill, Vocal Music, Piano and Violin.

Special Attention is given to those subjects which are directly important for the particular vocation in life for which the pupils are designed.

EXAMINATIONS.

Boys are prepared for the following—London Matriculation, Cambridge Locals, Civil Service, the various Examinations of the Science and Art Department, Royal Academy and Trinity College, London, for Music. The Commercial Examinations of the London Chamber of Commerce. The Preliminary Examinations for Entrance into the Army and Navy, and Royal Indian Engineering College, Cooper's Hill, Staines.

CHEMICAL LABORATORY AND LECTURE ROOM.

This building has just been put up at a great expense, and presented to the School by the Right Honourable Viscount Clifden. It is the most modern Laboratory in the county, and has been built to meet the requirements of the Science and Art Department.

PROSPECTUS, VIEWS AND MAGAZINE ON APPLICATION.

Exeter School, . Founded . 1332.

Head Master: W. A. CUNNINGHAM, M.A.

THE buildings are new, finely situated at about a mile from the City, and the School Grounds contain 20 Acres. There are a Chapel, Laboratory, Gymnasium and Swimming Bath.

The chief subjects of instruction are Latin and Greek, French and German, Mathematics, English Language and Literature, and Natural Science. There are Exhibitions attached to the School of about £600 a year, and the advantage to compete for certain close Scholarships.

The fees for Day Pupils range from £10 to £18 per annum, and for Boarders, £47 16s. Od. to £67 16s. Od.

For Junior Boys there is a carefully organised Preparatory Department. There is also special preparation for the Universities, for Woolwich and Sandhurst, and for various public examinations, with extra charge.

Clerks to the Governors, DAW & SON, Exeter.

THE HIGH SCHOOL FOR GIRLS, (Maynard's Girls' School), EXETER.

(Endowed 1658. Opened 1877. Present buildings erected 1887.)

HEAD MISTRESS: MISS PURDIE, Honors,

The course of instruction has been specially devised to include all the subjects necessary to the higher education of girls, and has proved itself by the results of over twenty years. The buildings are new. There is a Chemical and Physical Laboratory, well equipped, and a Cookery School. Preparation for public examinations at the request of the parents.

There is an alternative course of study for girls not going in for public examination.

The Tuition Fees range from £6 6s. to £15 per annum, and arrangements are made for the reception of Boarders.

Important Honor results have been obtained during recent years by pupils of the school.

"Dear Mr. Box,—Your Pills are the most valuable Pills anyone can take. They never impair nor weaken, but give STRENGTH and VIGOUR. I seem always to have fresh strength and energy after taking them; there are no Pills in England like them for the renewal of vital power and giving force when feeling languid and weary, and for indigestion I may say they are the Best in the World. I have had 16 years' experience of your Pills. They prolong life and produce the best of health.—Yours very sincerely, JOHN CHAPMAN."

EXPERIENCED MEN provided to apply the ANTIPLUVIUM, if desired; also the necessary brushes supplied.

TESTIMONIALS.

From Messrs. HINE & ODGERS, Architects, Plymouth.

DEAR SIR,

LOCKYER STREET, PLYMOUTH, 17th March, 1896.

We have pleasure in stating that your ANTIPLUVIUM is the best waterproofing solution we know of for application on the outside surface of walls. It meets, in our opinion, a want which has been often experienced in many exposed parts of Devon and Cornwall, where rain is driven through almost any material: we have witnessed its success in resisting this penetration and keeping walls dry, and can confidently recommend it where such an application is necessary for protection from damp. But it should only be applied after some weeks of sunshine and fine weather, and when the masonry or brickwork is dry.

H. BIRD, Esq., F.C.S.

Yours truly,

HINE & ODGERS.

From Dr. DAVIS, L.R.C.P., etc., Medical Superintendent Plymouth Borough Asylum.

DEAR SIR,

PLYMOUTH BOROUGH ASYLUM, BLACKADON, IVYBRIDGE, DEVON, July 2nd, 1895.

I am directed by the Committee of Visitors to inform you that the result of coating the South front of this Asylum with your ANTIPLUVIUM has, up to the present, proved highly satisfactory.

Yours faithfully,

ARTHUR N. DAVIS, Superintendent.

H. BIRD, Esq.

The whole of the exposed portions of the Asylum have since this date been successfully coated with ANTIPLUVIUM.

HEAD MASTER - F. R. RAY.

London University, Life Member of the College of Preceptors, formerly Cornwall County Councillor, Vice-Chairman of the St. Austell School Board, Cardinal Exhibitor of Dedham School, &c., &c.

The object of the School is to give a good education at a very moderate cost, and to combine the individual care and attention of private teaching with the thoroughness and comprehensiveness of the education of a Public School.

The domestic arrangements are admirably calculated to supply the want so frequently felt by parents, of a school in which boarders enjoy the watchful care of home.

SUCCESSES.

Examinations at which Mr. Ray's pupils have been successful:—

Oxford and Cambridge Locals, Senior and Junior; College of Preceptors; Science and Art; Examinations of Candidates for the Christian Ministry; Civil Service Competitive—India Office (*First and Second in All England*); Engineer Students (*Fifth in All England*); Men Clerks; Excise; Customs; Post Office. Royal College of Surgeons; Apothecaries' Hall; Royal Veterinary College; Pharmaceutical Society; Trinity College, London (*First in All England twice*); Open Mathematical Competition (*First in All England*); and many Honours, Prizes and Distinctions, including the position of *First in All England* many times, and that of *First in the British Empire*, in Shorthand, and the "*Sir Isaac Pitman Gold Medal*," one of Mr. Ray's pupils standing *First* of more than Ten Thousand Candidates.

Prospectus will be sent on application to Mr. RAY, Weston House, St. Austell.
